

**INDUSTRIAL DEVELOPMENT, DESIGN
AND MANUFACTURING COMPANY**

CATALOGUE OF
PRODUCTS AND SERVICES

INTRODUCTION

The private company G-M&M proizvodnja d.o.o. was founded in 1993 as the legal successor of a joint venture group with over 40 years of experience in manufacturing, project design, services, sales and marketing.

We strive for continuous technological development and excel with a reliable machinery fleet, highly qualified staff, an excellent development team and a wide-spread subcontracting network in close proximity; mainly in the fields of Al casting, Al pressure casting, galvanizing and all types of anti-corrosion protection.

This means we are in the position to offer you all of our services in a reliable and timely manner:

R&D, design and redesign, machine tool manufacturing, CNC machining, bending, laser cutting, excentric presses, sawing, welding, assembly, anti-corrosion protection and Al casting.

Dr. Uroš Rotnik

WHY CHOOSE THE G-M&M PROIZVODNJA?

01

Excellent partner for strategic development.

02

Highly qualified employees, high level of quality control – ISO 9001:2015 and ISO 14000:2015 certificates and excellent reliability feedback from customers.

03

Design, redesign with the option to implement the entire process – from production to assembly.

04

Years of experience and excellent responsiveness.

05

Direct cooperation with our partners (from industrial development companies) in the surrounding area.

WHY CHOOSE THE G-M&M PROIZVODNJA?

04

PRESENTATION OF PRODUCTS, MANUFACTURED IN G-M&M

07

ACCESSORIES FOR ELECTRIC AND BATTERY HAND TOOLS

08

Router tables

08

Work tables

08

Work benches with different accessories

09

Carts for transporting tools

09

Guide rails, metal jigs and clamps

10

Bags for electric and battery tools and accessories

10

SPECIAL CUSTOM MADE METAL PRODUCTS

11

ELECTRIC AND BATTERY HAND TOOLS

11

Electric and battery Pipe Cutting machines

11

SEVICES

13

Product Design & developing / prototyping

14

Assembly of complex and simple sets

14

Machining of aluminium and steel elements

15

Laser cutting

16

CNC bending

16

Excentric presses

16

Welding

17

Design and manufacturing of hydraulic components and systems

17

Powder coating, zincing, burnishing

PRESENTATION OF THE PRODUCT RANGE PRODUCED IN G-M&M

The company G-M&M proizvodnja manufactures different electric and battery hand tools for known buyers, accessories for electric and battery hand tools, tables, different metal products and special custom made products. All products can be personalized - OEM.

EXPERIENCE

FLEXIBILITY

HIGH QUALITY

ACCESSORIES FOR ELECTRIC AND BATTERY HAND TOOLS

Router tables

Range of use:

- professional portable router tables
- black fence squareness adjustment for absolute accuracy
- bench leg level adjustment when mounted on a bench
- made to EN standards

Work tables

Range of use:

- supports for all mitre saw
- lightweight design for easy transportation on and off site
- replaceable wood tabletop support for tool mounting

Work benches with different accessories

Range of use:

- designed for use with all mitresliding mitre saws and combo saws
- strong and adjustable work piece support for safe working on longer pieces
- features Tool mounts with safety lock for last and safe assembly

Carts for transporting tools

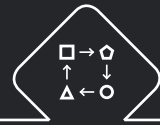

Range of use:

- for transporting different kinds of tools
- strong and adjustable, as well folding, work piece support for safe working on longer pieces

EXPERIENCE

FLEXIBILITY

HIGH QUALITY

Guide rails, metal jigs and clamps

Range of use:

- guide rails for circular saw, length: 1–2,6 m
- metal jigs
- different clamps

Bags for electric and battery tools and accessories

Range of use:

- different kind of bags from durable material for caring tools an accessories
- custom made

SPECIAL CUSTOM MADE METAL PRODUCTS

We offer a comprehensive development and production of complex small and large serial custom made products as well as components and semi-products.

Welded construction for Bowling lanes

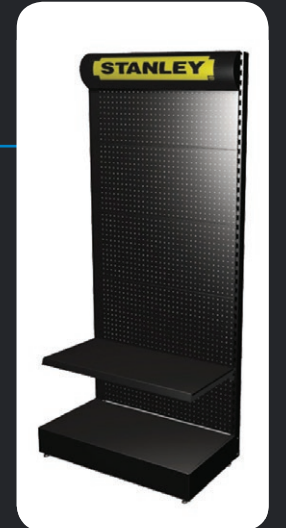

Machined aluminium casted element

Stamped sheet metal housing

Welded robust machine base

Modular sales stand with accessories

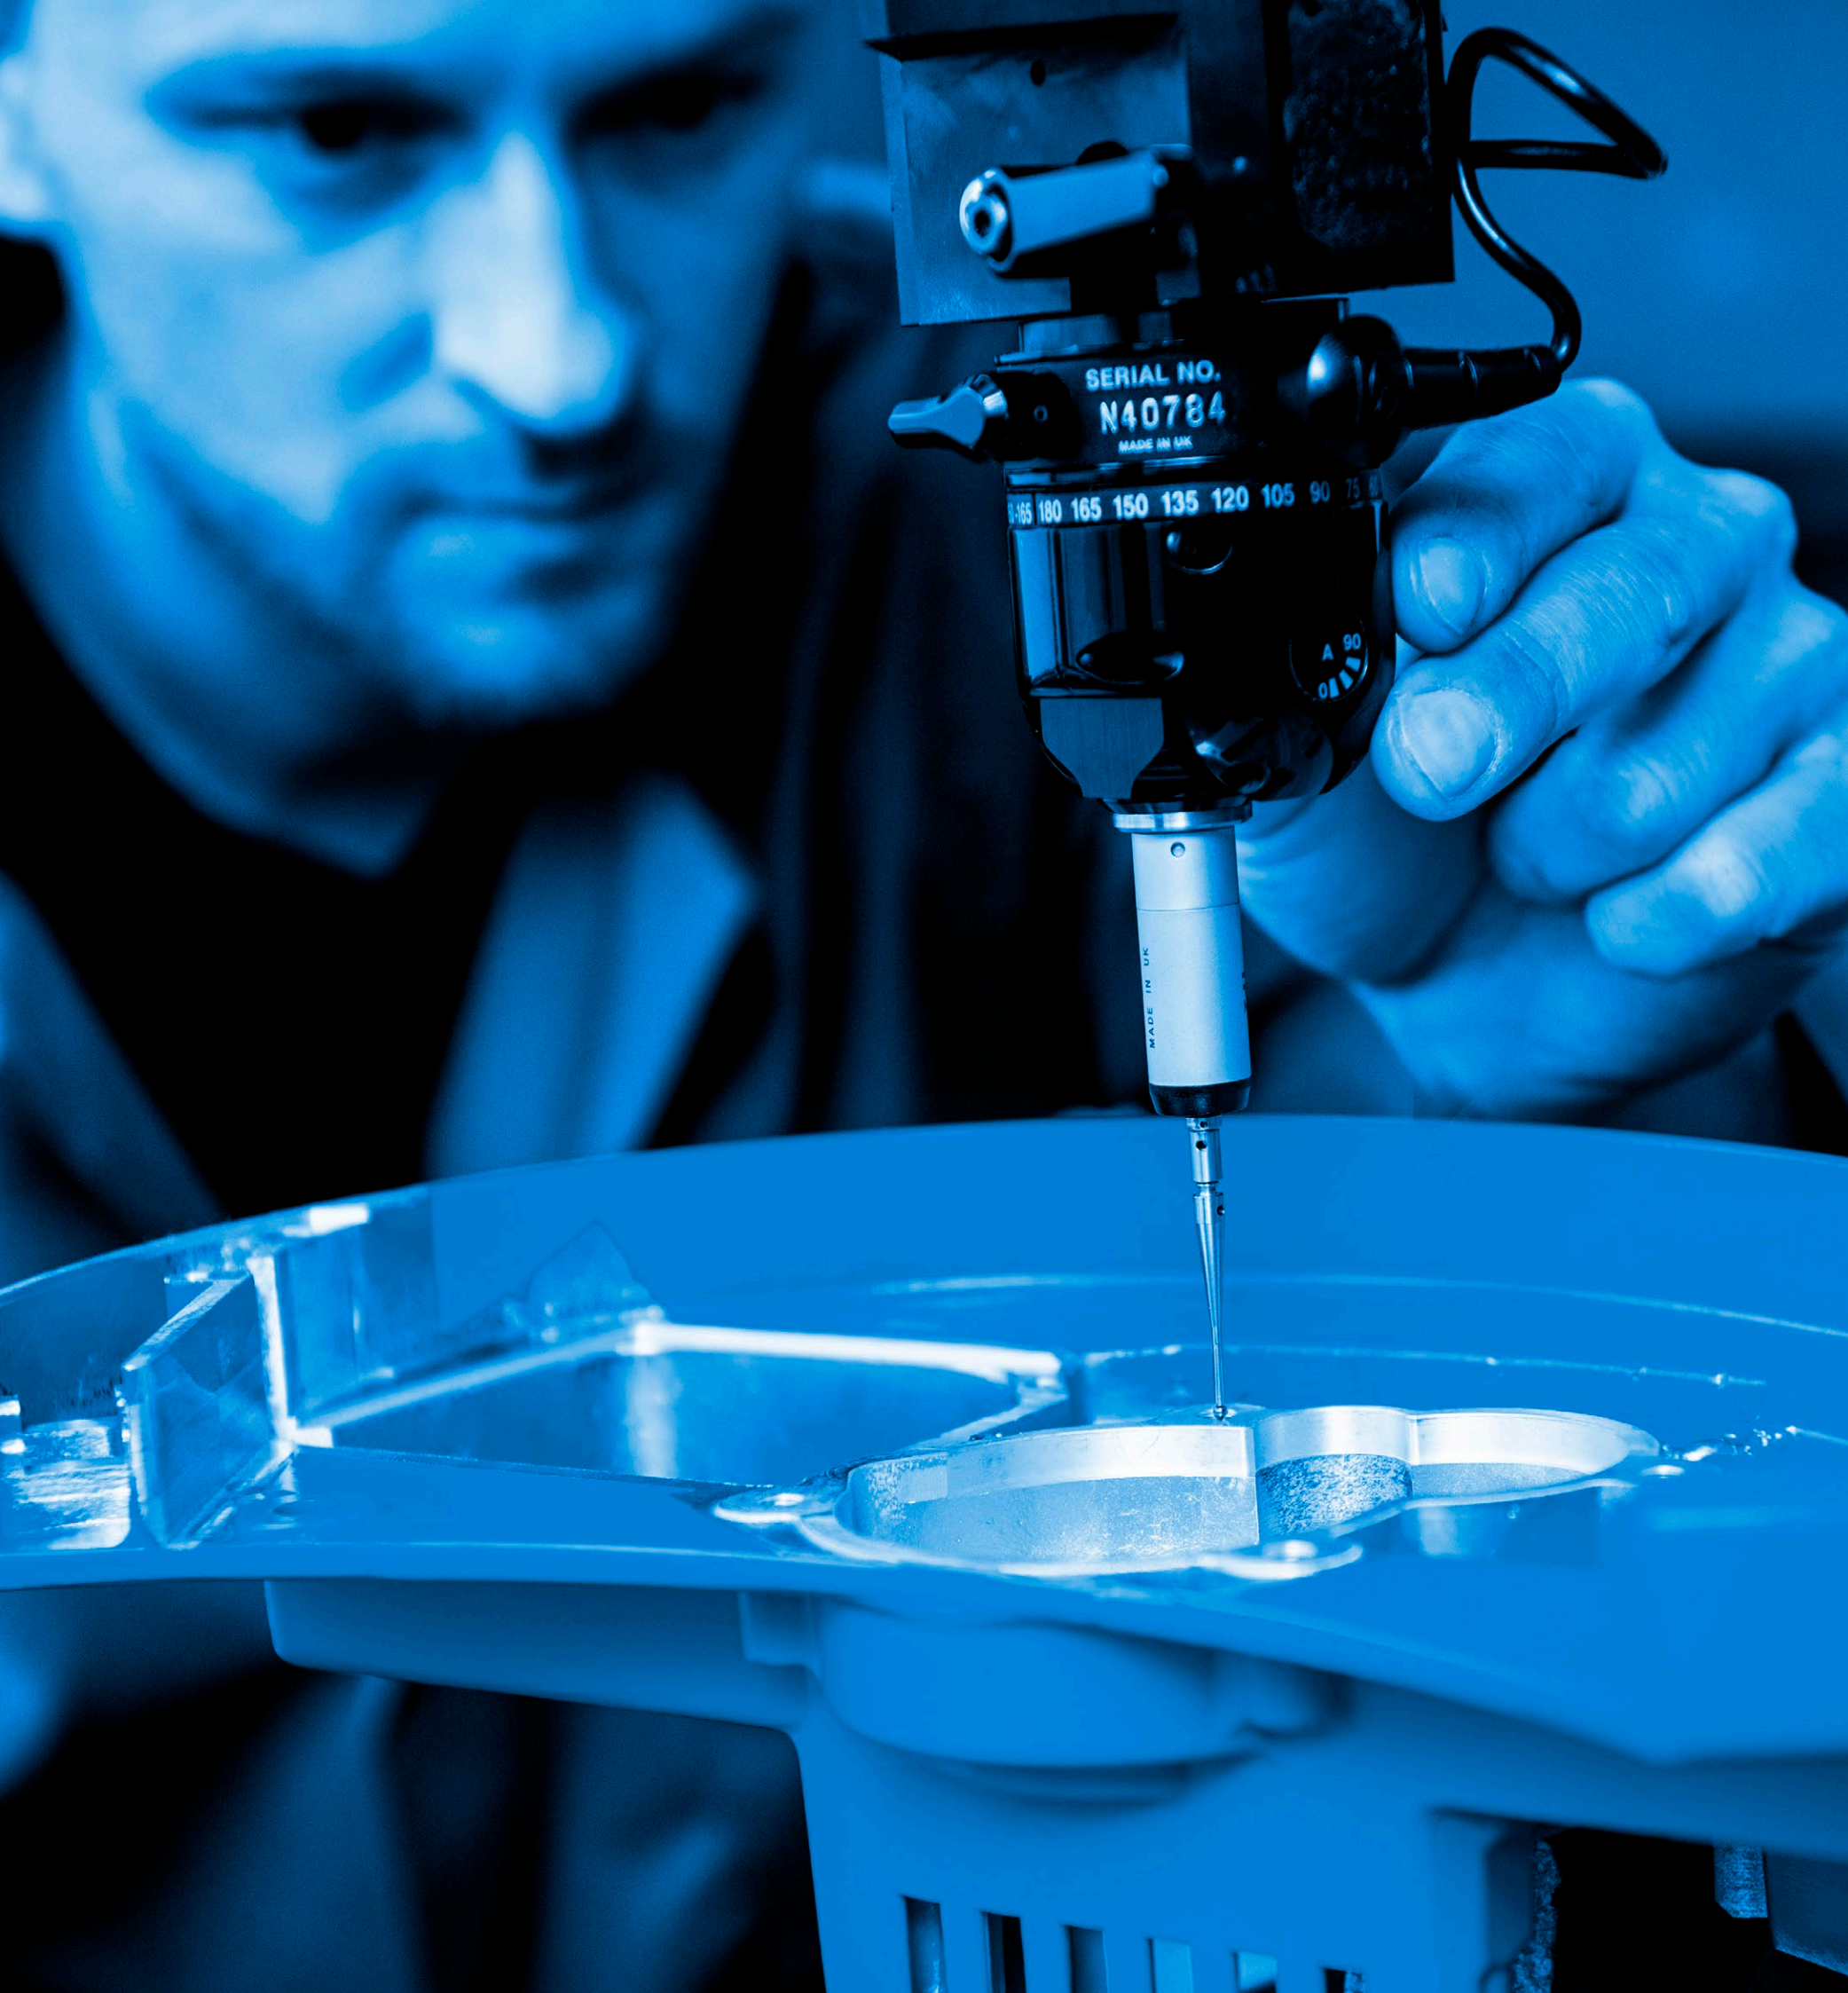

ELECTRIC AND BATTERY HAND TOOLS

Electric and battery Pipe Cutting machines

Range of use:

- material: plastic, steel and stainless steel
- 150–400 mm
- max pipe wall thickness: 8 mm
- plastic: 25 mm

SERVICES

G-M&M proizvodnja also offers different services in metal processing industry with only one aim: manufacture the technologically best product for end-user.

HIGH QUALITY

PRECISION

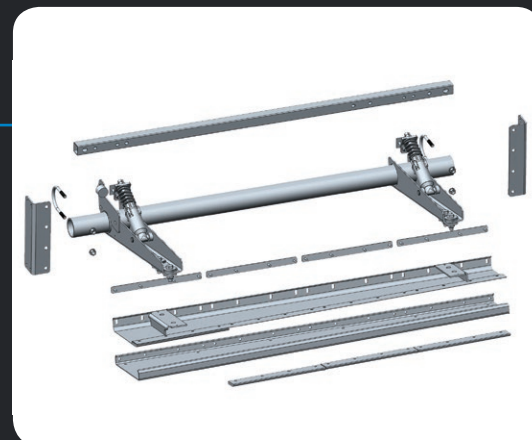

FAST RESPONSE

WE CAN OFFER YOU THE FOLLOWING SERVICES

Product Design & developing / prototyping

- new products development for known customer
- design facilities available – 3D CAD designing
- prototyping

Assembly of complex and simple sets

- separate assembly cells for individual products
- current available area 1.300 m²
- expanding possible

Machining of aluminium and steel elements

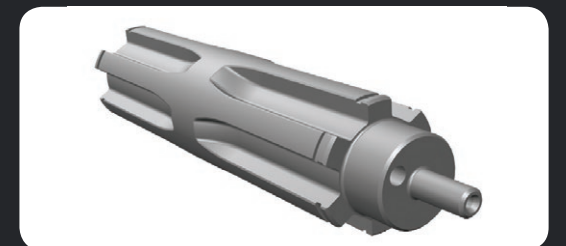

CNC machining centers:

- highly productive for mass production Mori Seiki NH 5000 and NH 4000
- working area: 500 × 500 mm
- max. speed: 14.000/min

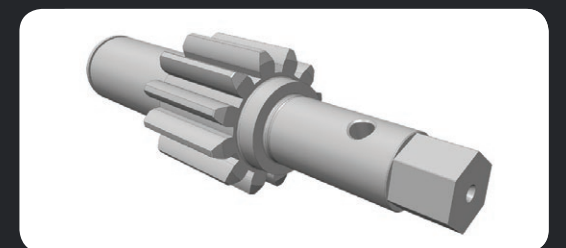

CNC turning:

- max. turning diameter: 250 mm
- max. turning length: 500 mm
- shift X, Y, Z: 176 × 520 mm
- positioning accuracy of 0,002 mm

CNC machining:

- EAGLE 1000
- distance spindle – table: 120–630 mm
- table size: 1.200 × 450 mm
- max. table load: 600 kg
- shift X, Y, Z: 1.020 × 510 × 510 mm
- positioning accuracy of 0,004 mm
- the accuracy of alignment: ± 0,002 mm
- load capacity of 20 tools

HIGH QUALITY

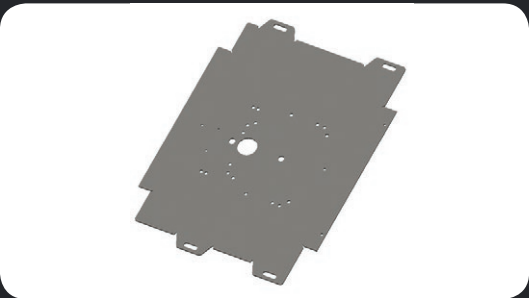

PRECISION

FAST RESPONSE

Laser cutting

- TRUMPF Trumatic TC L3030 and Trulaser 3030
- power: 3000 W
- working area: 3000 × 1500 mm
- wight up to: 710 kg

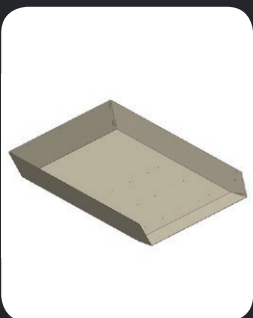

CNC bending

- length: up to 3000 mm
- power: 100 T
- 4 axes

Bending radiuses:

R0.8 | R1.25 | R1.5 | R2 | R3 | R5 | R6 | R8 | R10 | R20 | R45

Excentric presses

- from 25–160 T
- whit sheet metal feeder

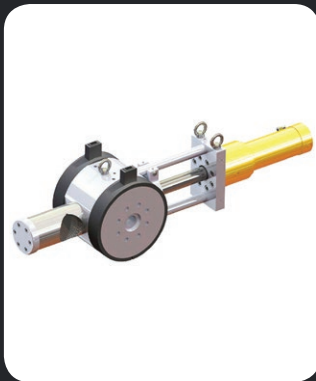

Welding

- welding material: steel, stainless steel, aluminum ...
- manual welding, semi-automated MIG welding, spot welding and puncture

Design and manufacturing of hydraulic components and systems

Powder coating, zincing, burnishing

- Together with our subcontractors, we can also offer you the following professional and quality services of coating, zincing and burnishing.
